Art Unit: 2635

1. This Office action is in response to the application filed September 27, 2001. Claims 1-20 are pending.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-20 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited.

Regarding claims 1-20, these claims merely recites desired functions without the necessary means for providing the functionality. Thus, the scope of the claims can not be determined.

Regarding claims 4-9 and 11-20, the use of the term "dependent" is not appropriate. The standard terminology is "as recited in claim". Further, additional recited elements should be presented as "further comprising" while factors limiting a previously recited element should use a "wherein" clause. See cited patents for examples.

4. Claims 9, 13-15, 17, 18, and 20 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim must be in the alternative. See MPEP § 608.01(n). Accordingly, the claims 9, 13-15, 17, 18, and 20 not been further treated on the merits. For example, one should recite "one of claims 1-3" instead of "claims 1-3."

Art Unit: 2635

5. Due to the indefinite nature of the claims, no prior art rejection is possible at this time.

However, related art based on the Examiner's understanding of the specification is presented for the benefit of applicant.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Albert K Wong whose telephone number is 703-305-8884. The examiner can normally be reached on M-Th.
